

Eco-Canine Power

Turning Waste into Watts

Presented by: Gustavo De la Torre, Brian Deng & Alejandro Jimenez

The Problem

- **Dog Waste Overload**
 - Public spaces struggle with managing dog waste
- **Landfill Burden**
 - Waste and plastic bags contribute unnecessary trash to landfills
- **Need for Innovation**
 - Demand for greener, smarter solutions in public amenities

Dog Poop, Power Source

- **Turning dog waste into usable energy is our focus.**
- **Our bin system collects and converts canine refuse.**
- **Eco-Canine Power makes parks cleaner and sustainable.**
- **Generating energy from waste helps community resources.**

Product Description

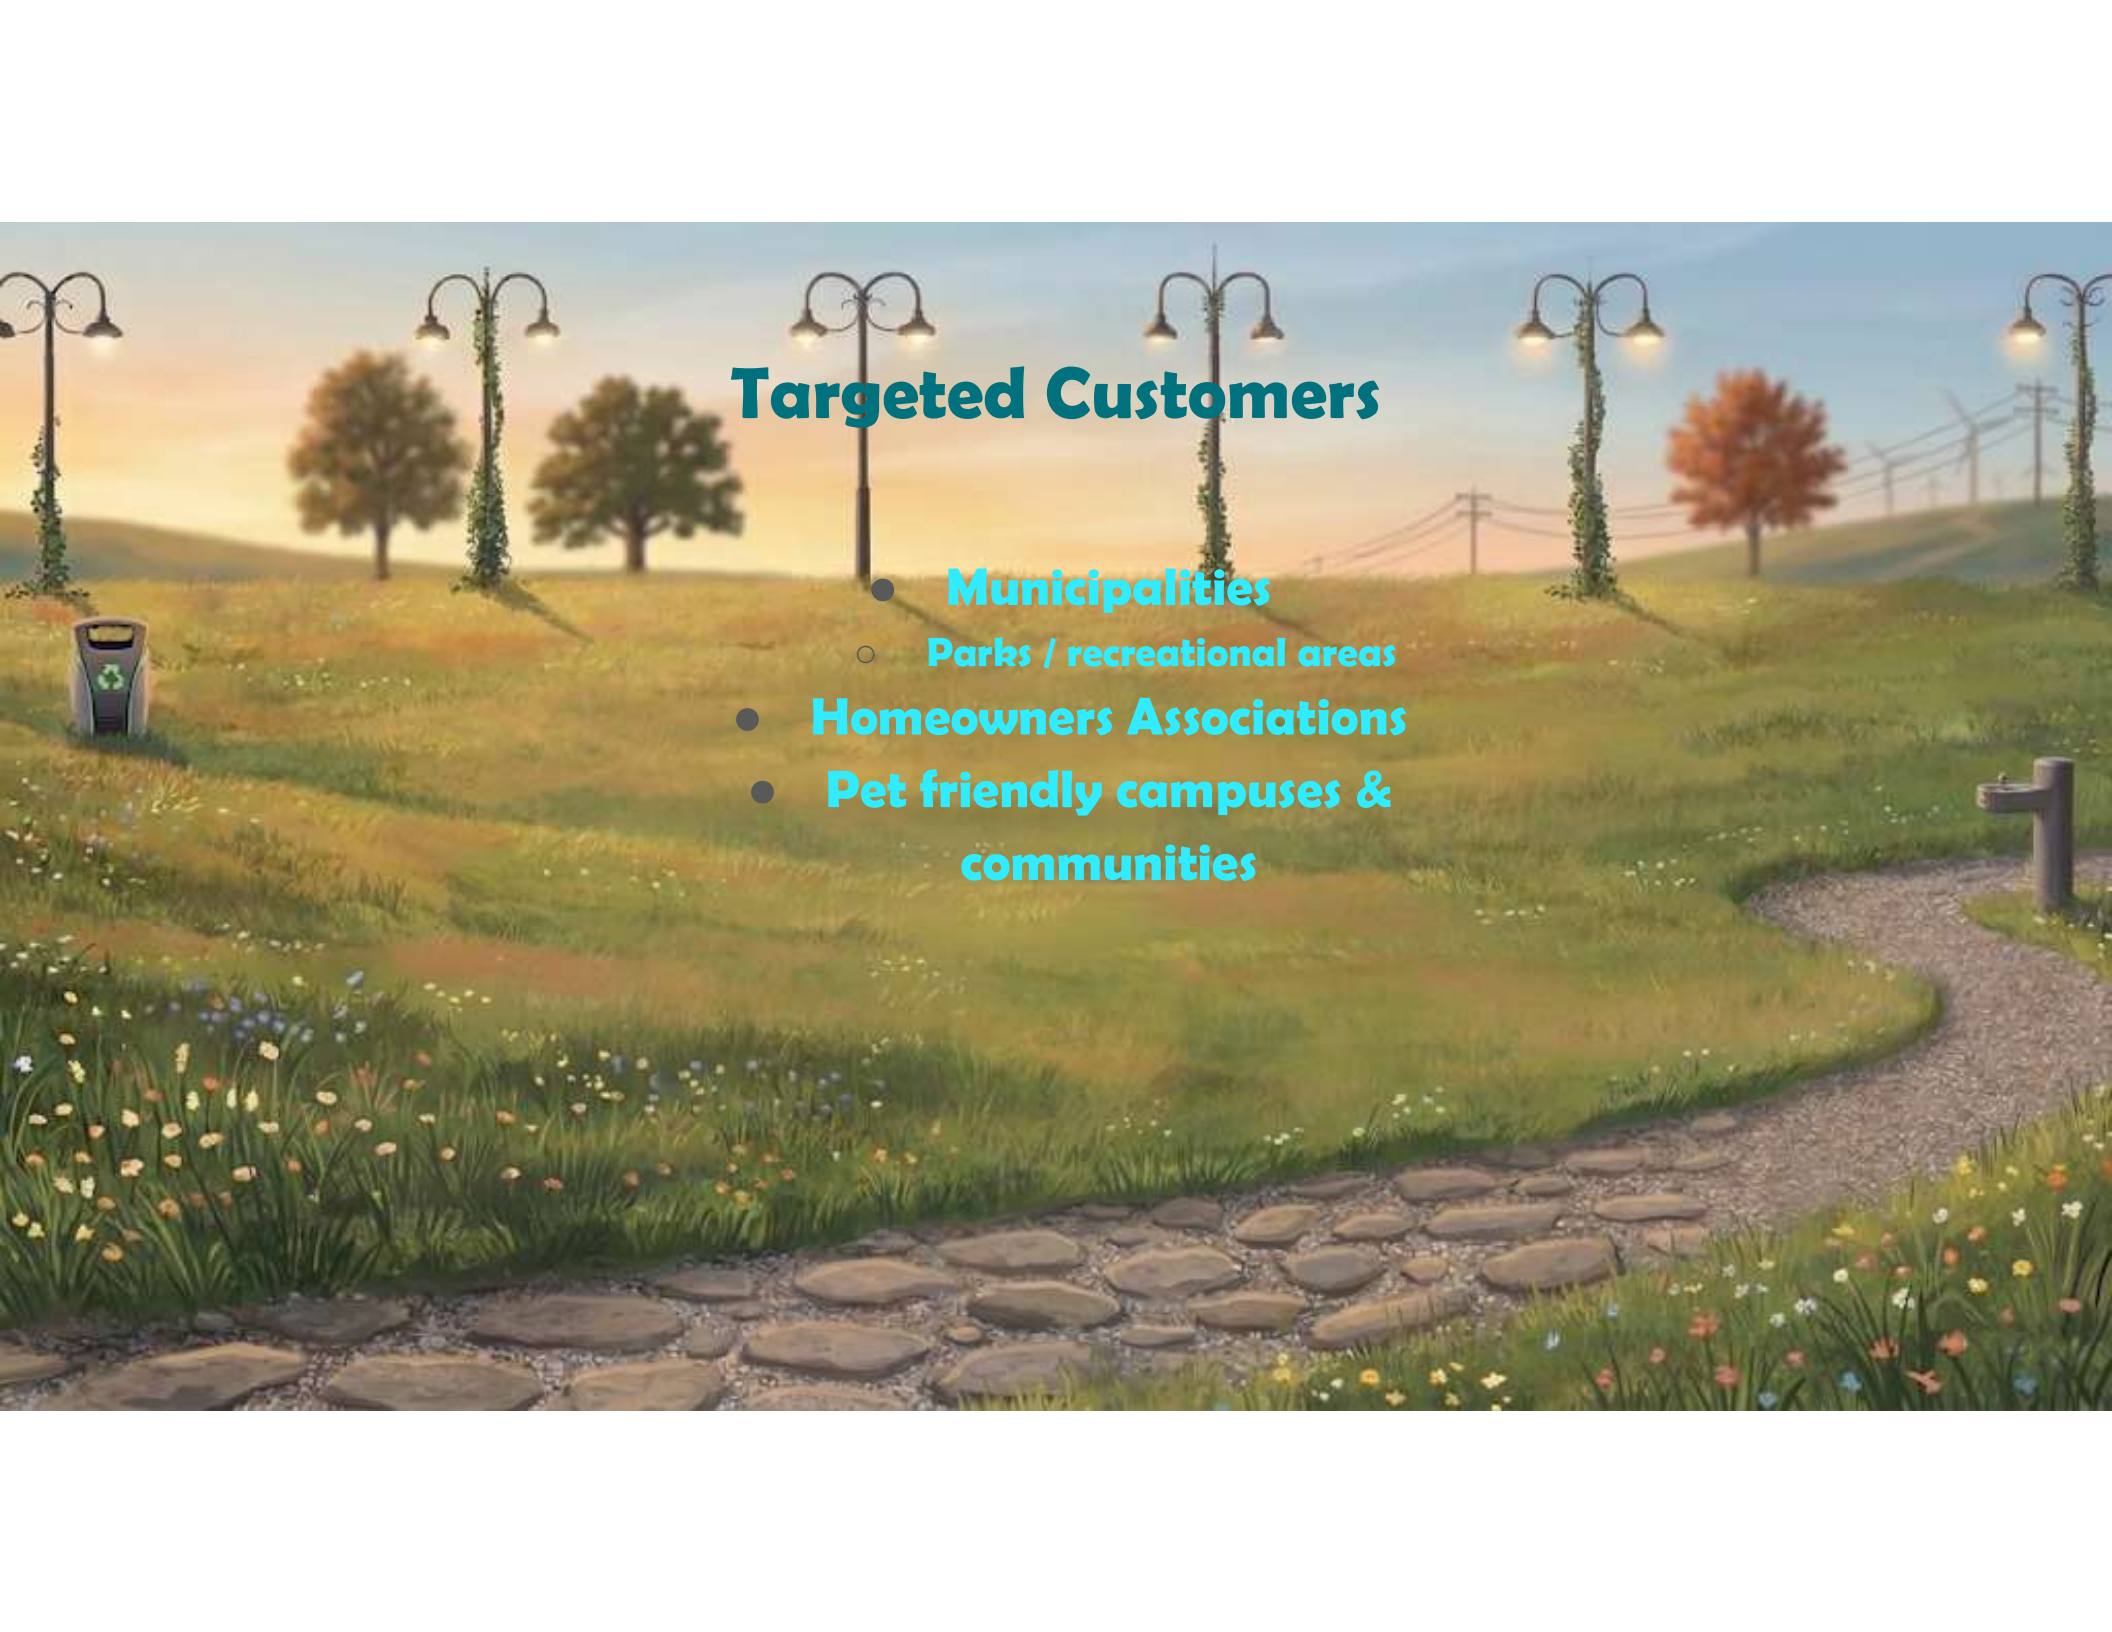

- **Solar Powered:**
 - Integrated high-efficiency solar panel on top
- **Waste Conversion:**
 - Internal anaerobic digester breaks down dog waste into usable energy
- **Energy Generation:**
 - Produces biogas (methane) + uses solar energy
- **Usable Output:**
 - Powers integrated features (e.g., LED path lights)
- **Durable Design:**
 - Weather-resistant construction for public use

Unleashing Innovation: Eco-Canine Edge

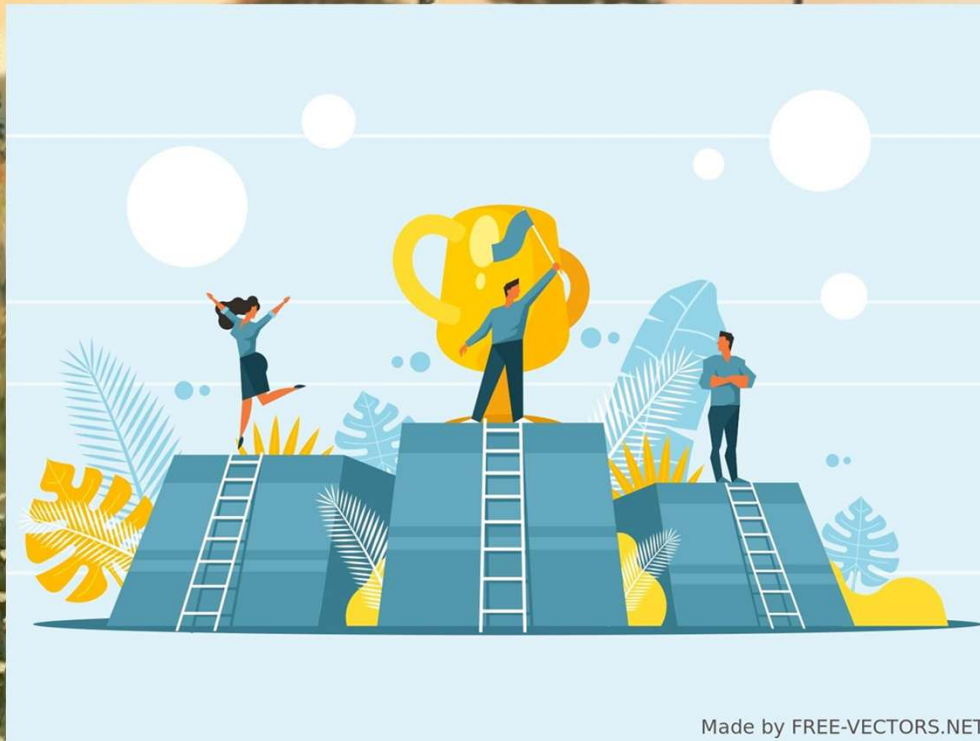

- **Unique system combines solar, digestion, and energy generation.**
- **Transforms waste into a valuable energy resource effectively.**

Targeted Customers

- **Municipalities**
 - **Parks / recreational areas**
- **Homeowners Associations**
- **Pet friendly campuses & communities**

Competition

- **Direct Competitors:**
 - Currently minimal
- **Indirect Competitors:**
 - Standard dog waste stations & trash cans
 - General solar trash compactors (that don't process/convert waste)

Sales Pitch & Value Proposition

“Turn public dog waste from a costly disposal problem into a clean energy resource.”

Key Benefits:

- Reduce landfill waste and plastic bag use
- Provide sustainable energy for public amenities
- Enhance public spaces & demonstrate environmental leadership

Startup Costs

**Estimated Funding Required: \$50,000 -
\$150,000**

Use of funds:

- **Research and development**
- **Prototypes and testing**
- **Initial manufacturing & components**
- **Business Operations**
- **Marketing & sales setup**
